OBJECTIVE

AI & Data Science major with hands-on experience in developing Machine Learning, NLP, cybersecurity, generative AI technologies. and full-stack development. Passionate about building scalable AI systems using LLMs and automation pipelines with measurable real-world impact.

EDUCATION

- REVA University** Bengaluru
B.Tech in Artificial Intelligence and Data Science — CGPA: 9.0/10 2023 – 2027
- St Claret Pre-University College** Bengaluru
Physics, Chemistry, Mathematics, Computer Science — 83% 2021 – 2023
- Bishop Cotton Girls School** Bengaluru
ICSE / High School Education — 80% 2011 – 2021

SKILLS

- Languages:** Python, TypeScript, SQL, HTML5
- AI/ML:** TensorFlow, Scikit-Learn, Pandas, NumPy, OpenCV, PySpark, LLMs
- Web Development:** Flask, REST APIs, Node.js, FastAPI
- Cloud & Tools:** Git, GitHub, Docker, PowerBI
- Concepts:** NLP, Prompt Engineering, Sentiment Analysis, Cybersecurity

PROJECTS

- AI Security Gateway – Prompt Injection Defense** 2024
LLM Security System
 - Threat Prevention:** Designed a Python-driven defensive mechanism that reduces prompt injection attacks up to 95% in simulations.
 - Adversarial Detection:** Developed NLP-based anomaly detection capable of identifying 500+ adversarial prompt variations targeting LLM systems.
- TrustScore AI Lens** 2024
Phishing & Fake Review Detection Platform
 - ML Classification:** Achieved 92% phishing detection accuracy and 89% fake review classification accuracy using Scikit-Learn.
 - Risk Scoring System:** Processed 1000+ text samples and generated real-time trust scores and risk alerts within seconds.
- Clarity AI** 2024
Digital Wellness & Content Verification Platform
 - LLM Integration:** Integrated cloud LLM APIs to detect misinformation, emotional bias, and logical fallacies with 86% evaluation accuracy.
 - NLP Pipeline:** Built scalable NLP pipeline handling tokenization, entity recognition, and preprocessing for 1000+ queries.

ACHIEVEMENTS & CERTIFICATIONS

- Hackathons:** 1st Place – Intra Dept Psychology Hackathon
2nd Place – NammaHack GDGoC Hackathon (UNSDG)
- Certifications:** Palo Alto Networks – Cybersecurity Fundamentals; IBM SkillsBuild – Cloud Computing; Cisco AI Technical Practitioner (AITECH); Cisco Networking Academy – Cybersecurity Basics

LEADERSHIP

- Google Developers Group On Campus** REVA University
Member 2025 – 2026
 - Community Impact:** Coordinated technical workshops, hackathons, and talk sessions that affect more than 300 students in collaboration with industry partners and student representatives.
